INTERNSHIPS

Full Stack Web Developer(GolokaIT)

June 2024 - September 2024

- **Working on Frontend Development:** Involved in creating the frontend of the client application using React, focused on building user interfaces that are responsive and user-friendly.
- **Collaborating with the Team:** Actively collaborated with the development team to understand project requirements and translated them into functional code.
- **Version control and Project Management:** Utilized Git for version control and participated in Agile methodologies through task assignments and updates.

PERSONAL PROJECTS

Find Your Player| [Demo](#) | [Code](#)

- Launched Find Your Player as an exclusive online platform for cricket enthusiasts; enriched the site with searchable data on over 10,000 players spanning from the late 1800s until today.
- Engineered an intuitive search functionality allowing sports enthusiasts to filter cricket players using specific metrics including age and performance records.
- It is built using ReactJs.

DragForms-Quiz Forms Web App | [Demo](#) | [Code](#)

- Developed a feature-rich web application for creating and filling questionnaire/quiz forms with a user-friendly drag-and-drop interface.
- Implemented advanced question types, including Categorize, Cloze, and Comprehension.
- Integrated authentication and OTP validation for secure account registration.

Todo List App| [Demo](#) | [Code](#)

- Developed a full-stack To-Do List application using ReactJS, Node.js, and Express.js with secure authentication features like login and signup.
- Implemented CRUD operations, advanced filtering, sorting, and real-time search to provide an intuitive and efficient user experience.
